THE BASSANO MAIL, THURSDAY, MAY 2, 1918.

Vol. 46, No. 46.

## MAKEPEACE

MAKEPEACE, April 18th.—A large crowd attended the dance in Makepeace last week in honor of the Out-herston and Baisley families. Crowfoot was out in full force and joined with Makepeace in wishing them success. Mr. E. Campbell very ably filled the position of spokesman on behalf of the community. After singing Auld Lang Syne, a few hours were enjoyed in dancing.

There were exceptionally large crowds at both Auction sales held in the district. Several of the confirmed bachelors were noticed buying window curtains, furniture, etc.—Can never tell, you know.

The Makepeace and Crowfoot Soft ball fans turned out in full force on Sunday last. Because of unsettled weather, Latton did not turn up, but Makepeace took Crowfoot into camp by the score of 22 to 8. We notice the umpire had on his tie.

Mrs. McCurdy's parents from Saskatoon have been visiting at Makepeace over the week-end. Mr. and Mrs. Sloan were dinner guests at the McCurdy home Sunday last.

The new V4 from Husar was in Makepeace this week, and a couple of young ladies report a very enjoyable ride in the new buggy. There is some talk of Husar forming a Protective Association also.

There has been some activity around the old town lately. The seed wheat and oats have been going out. All they are waiting for is a few warm days and seeding will be in full swing.

Thos. Kludoff, Gov't. Field man, was in town last week. Bert Rose and D. C. Portney from Gem were also business callers in Makepeace.

### \* NOTICE TO VETS.

All returned veterans of Bassano and District are requested to assemble at Playfair's Service Station, Bassano, at 1 o'clock on Monday, May 6. Those possessing uniforms are asked to parade in them. Medals and Decorations are also requested to be worn.

## Communication From Large Committee

Committee Urged White, Jones & Anderson to Stand for Election.

At a meeting held in Brooks on April 25, the following resolution was passed:

Resolved that the Large Committee write the following letter to the Brooks and Bassano papers in order to make it clear that it was at the instance of the Large Committee that Messrs. White, Jones and Anderson agreed to permit their names to go into nomination as candidates for Trusteeship.

At two well attended meetings of the Large Committee it was unanimously resolved that it was very important for the welfare of the District that Messrs. White, Jones and Anderson be the first trustees of the Eastern Irrigation District.

None of these men were anxious for the job but at their instance they agreed to run for the Trusteeship. D. J. Jantzen, P. J. Stuhls, A. V. Parusworth, J. H. Edwards, Jena Block, Anton Helmer, G. Groschell, Ralph Burrows, P. D. Williamson, A. M. Miller, A. M. Peterson, Jim Hall.

## UBERTINO IS WITNESS, NOT PLAINTIFF IN COURT CASE

The suit against A. Laganiere of Rosemary held in the district court, Bassano, as the result of an auto accident in which P. Ubertino was involved was inspired by the Mutual Insurance Co. and not by Mr. Ubertino. The latter had his car insured by the company who compensated him for damage done. Mr. Ubertino appeared only as a witness in the case.

## SOCIAL CREDITORS NOMINATE FOUR AT CONVENTION HERE

Elect Four Nominees, One to be Candidate for Bow Valley-General Evening Meeting.

Forty delegates, representing 17 Social Credit Groups in this constituency, gathered in Convention here on Wednesday afternoon for the purpose of electing nominees, one of whom is to be selected Social Credit candidate.

Of eight men nominated, the names of the following four are under consideration with the view of selecting the candidates: P. J. Mueller, Brooks; W. J. White, Brooks; L. P. Schouler, Husar; C. Blake, Husar.

These four names will go before a committee of the Social Credit constituency delegates and three members from the Calgary Central on May 4 for the selection. President P. J. Mueller, presiding at the convention, opened with a brief summary of organization work in the constituency and the financial problem to be dealt with for the coming election.

A Credentials Committee of W. E. Cain, Mr. Hagi and B. F. Graham was appointed.

Secretary Mrs. S. H. Edwards read the minutes of the Convention held here in March, the financial report and a communication from Mr. Albert.

Discussion centered on sources of funds for the campaign; a motion by L. P. Schouler being passed to the effect that each group contribute by levying a flexible amount on itself. Following the election of nominees W. Moore was elected as delegate from Brooks in the place of W. E. Cain, and C. Mills as delegate from Husar in the place of P. J. Mueller.

## Calgary Speaker Addresses Crowd

Mr. Ray of Calgary was the main speaker at the evening meeting. After extending the greetings of Mr. Albert and Mr. Manning from Calgary, he related the activities of Social Credit in the northern part of the province. The north, Mr. Ray stated, was taking up the movement thoroughly—in seven night's speaking, seven groups were formed, totaling 600 members. At Steamtown a group was formed spontaneously in one night with over 150 members.

The speaker definitely stated there was no difference between the Douglass and Albertism schemes, both systems being the same with the latter going a step further. Facts and figures are necessary before the work of local saxophone players can be published, he affirmed.

The backing of the Basic Division was good and services provided by the people and their ability to produce, behind them stand the natural resources of the province. The greater the production, the greater the dividend.

In the question period all questions stated they were satisfied with answers given. Previous to Mr. Ray's address, the four candidates, W. E. Cain, C. Blake, L. P. Schouler and P. J. Mueller gave short talks. The latter was chairman for the evening, introducing each of the speakers in turn.

Joe Hamilton and Alf Hansen also entertained the meeting with two solos, accompanied by Mrs. W. B. Sambrook. The meeting ended with the singing of the National Anthem.

## LOCAL NEGRO MINSTRELS TO EXHIBIT WARES FRIDAY

Bassano, Sambo, Mose and Company are ready to show the pure white trash of Bassano and district that the local niggers are "purer hot stuff." In fact, they have even rented the Masonic Hall for Friday night and made arrangements for a capacity crowd.

Their program is composed of songs and dances, and music, and old negro tales glorifying the ancestors of their Civil War ancestors. The niggers are very reluctant about letting the public "in on the know" but the highlight of the show

## BOARD OF TRADE

Members of the Board of Trade are reminding that the regular luncheon and meeting will be held on Wednesday, May 8th. Important matters will be up for discussion.

## GEM

GEM, April 30—School re-opened after the Easter holidays, with all the teachers and most of the students in attendance. How strange it seemed at 9 o'clock to be at work instead of being sound asleep! But we still have the days of Technocracy to look forward to, when we can sleep as much as we like.

In gathering up the threads of the broken pattern of our existence, it seems there is nothing new to add to the design. There's no news but the old news. However, for the benefit of those who may not have heard the old news, we will attempt to inform them.

Many Gem old-timers are leaving or have left the colony. Mr. and Mrs. D. K. Douglas and family recently moved to Brooks. Mr. and Mrs. D. C. Portney and family left on Tuesday for Makepeace where they will engage in farming. "Old Joe" Cserny and son Jerry, together with the latter's family are moving to a farm near Edmonton.

Misses Thelma and Barbara Sparks and their sister vacation with Miss Leona Leischer of Carstairs, formerly of Gem.

W. C. England and Miss L. B. Pollock returned from Calgary on Sunday after spending the holidays at their respective homes there. Miss C. Hanna returned on the same day from Vancouver, having spent her vacation in that city and in Chilliwack, B.C.

Miss Helen Waltemath came home from Calgary recently to visit her parents, Mr. and Mrs. C. Waltemath. Mrs. S. B. Selridge gave a party on Thursday, April 25, for her ten year old children, including, Thelma and Ruby. About thirty-five children were present and enjoyed the afternoon playing games under the supervision and with the help of their mothers. After the games a delicious lunch was served.

We regret to report that Mr. Ross Martin, who has been in the hospital for over two months, has had a relapse. Mrs. Martin went to Bassano on Tuesday to visit her husband.

Misses K. Robson, J. Knorr and B. George, and Bill George were Calgary visitors last Thursday.

There will be a meeting of the J. R. P. A. on Sat. May 4th at the Gem from 8 to 8 p.m. The main business of the meeting will be to elect delegates to attend the Junior Conference in Edmonton in June.

Our local saxophone player took another lesson last week and is doing remarkably well. Len Standen will soon be rivaling Len Davis as a leader of orchestras.

Seeding was started by some farmers the past week, but it will be a few days yet before it is general. Among the first to have the drill going were Joe King and Chas. McKinnon.

## BASSANO TO CELEBRATE JUBILEE DAY ON SUNDAY AND MONDAY

## JENNER FARMERS LEARN FACTS OF PROJECT DEAL

Carl Anderson, Tait White Give Lie to False Rumors

On Saturday, April 25, a great number of U.F.A. members and contract holders met in Taitley for the purpose of learning the actual facts of the project transfer from the C.P.E. to the Eastern Irrigation District (the farmers of the project) and thus to clear up for them many misleading rumors that have been going the rounds.

Carl Anderson of Scandia and Tait White of U.S.A., members of the Small Communities, each spoke for about an hour. They gave clear and complete reports of the work that had been carried on and of the results obtained that the only questions asked during the meeting were those relating to future policies regarding grazing leases. As that question was yet up to them, the speaker, only tentative replies could be given.

It was pointed out that H. Charlesworth, the provincial director of water services, had continuously checked parts of the program that led up to the actual transfer and he was up to date in the Official Trusts and director of all business at present being transacted for the District.

After studying the auditors' figures after the government auditor had given from the C.P.E. D.N.R. books, Mr. Charlesworth was convinced it was a good proposition as far as water disposal was concerned. The committee, however, was not prepared to accept the first proposal made by the company and said that, in the light of the auditors' figures, a new deal would be made. So the speakers commended their drive for a better proposition for the farmers and secured a deal that was incorporated in the government bill. This is virtually a gift of the Project and the money to operate for two years.

One of the most important points in the whole proposition was introduced in the new deal, namely relieving the District from any liabilities due to railway track damage from sewage or other cause as long as the works were in a normal state of repair. (It can easily be seen for a train against the District for a train caused by sewage might easily bankrupt the District.)

Considerable stress was laid upon the value of services given the Committee by Mr. Powlett. His ability to get the work done and winning the work at all times for the benefit of the farmers has proved of immense value to all the project.

The selection of Mr. H. O. Angell of Bassano as Chief Engineer was done with the approval of Mr. Charlesworth.

In no case has the Committee in their necessary action to advance the work exceeded their authority. Since some opposition has been registered regarding the treatment of company employees by the new District, Mr. Anderson and Mr. White explained some long standing issues they had gone to in their endeavors to see equitable and just steps taken in their protection.

At the end of the meeting, Mr. Helmer called for a vote of thanks for the speakers and this was most heartily given. All left the meeting with much approval for the scheme and also approval for the men who have fostered it and brought it to a safe and sane conclusion. These are the men who are now ready to stand for election as trustees.

A Silly Rumor! From some source has arisen a rumor that to cancel old contracts and issue new ones, the District will charge the contractor \$20.00. This is entirely false. The cancelling of old and issuing of new contracts is a very necessary part of the District's business and the cost of it will be taken up in general office expenses. The District is not out to prey upon its members but to help them and by every means possible make them better satisfied and also to increase their numbers.

Why do yourself damage by repeating such foolish ideas?

## Service at Knox Church on Sunday—Parade Monday

Celebration of the King's Silver Jubilee will commence on Sunday, May 5 in Bassano with a joint service conducted by Rev. J. Hart at 1:30 p.m. in Knox Presbyterian Church. Mr. Hart will deliver an address fitting to the occasion. A feature of the service will be the singing of Kipling's "God of Our Fathers" by a joint choir. Everyone is cordially invited to attend this service.

On Monday the program commences at 1:30 p.m. with a parade which will organize on Main Street, west at the Imperial Hotel. There will be several floats backed by various local organizations, and the Great Southland Parade, C.O.T.U., the Fire Brigade and school children will also join the march. All owners of cars are urged to decorate them with flags and bunting and line up on Monday.

The parade will end at the school grounds where the remainder of the program will take place. The jubilee number of 400 will be distributed to school children. An address will also be delivered.

A full program of children's sports will be run off under the supervision of L. N. Whitehorn. No entry fees are charged and prizes will be awarded. Arrangements are being made for a football tournament and a football game.

In the evening, a gigantic bonfire will be built at some central location, depending upon the winds at that time.

The program was organized when the town council met in conjunction with representatives of several local organizations last Friday. Those elected to the committee were: E. L. Desrivier, deputy mayor, chairman; F. D. Macdonald, mayor; Dr. D. B. Barlow, Fire Brigade; Mrs. S. H. Edwards, Women's Institute; Rev. J. Hart, clergy; W. J. Redmond, returned veteran; L. H. Wilbourn, returned veteran; and W. L. Flanagan, school board; Jas. R. Donadon.

The town contributed \$50 to a fund for the purchase of a new Fire Brigade will also contribute. Ten dollars was received from an anonymous donor.

Dr. D. B. Barlow is in charge of the parade and bonfire and L. Whitehorn of the children's sports.

## ROSEMARY

ROSEMARY, May 1.—Freddie and Ruby Beckwith, Richard and Agatha Gillings of Rosemary, and A. Debus of Canisla, motivated to Cluny Saturday morning and returned Saturday evening.

The following were visitors in Calgary last week: Mrs. W. Park, Mr. and Mrs. R. Norton and J. L. Young. Mr. and Mrs. Roy Eastman and daughter were Bassano visitors on Saturday.

Mr. and Mrs. P. Adams and Betty attended the sale at Makepeace last Thursday.

Chester Narm of Marjville spent a few days last week visiting friends and relatives here.

The dance given by the Junior high ball club was very well attended in spite of the rough roads. The sum of \$43 was taken in and will go towards buying their basketball outfits. Mrs. C. Gillings won the \$2 cash.

Stewart Wurster of Latham spent a few days visiting the Peasey family. Mr. and Mrs. McNam and Mrs. of Duchen, have moved into the house recently vacated by Wm. Olson. Mr. McNam will be the new ditcher here.

Ed Moder and Fred Loreke motored to Bassano last Saturday. Jean Norton made a trip to Bassano on Monday.

Miss Cora Narum has returned from Duchen, where she was ill and was receiving treatments.

C. Enderby and F. Hamer of Duchen passed through the colony last Tuesday.

## HONKERS ARE PETS (Special to The Mail)

The pair of geese often seen flying so very low around Countess are pets. They have raised near here, and here last season, and if left unmolested, will nest here again. Let's give them a break.

# SILVER JUBILEE

The Silver Jubilee of His Majesty, King George the Fifth

will be celebrated on

## Sunday, May 5

by a COMMUNITY SERVICE

in Knox Presbyterian Church, Bassano.

at 7:30 p.m.

EVERYONE CORDIALLY INVITED

## PARADE AND SPORTS Monday, May 6

A Parade consisting of:

FIRE BRIGADE -- RETURNED VETERANS CADETS -- C. G. I. T. SCHOOLS CHILDREN

will assemble at 1:30 p.m., line up at East of Imperial Hotel, and march around Town to School Grounds.

## PATRIOTIC ADDRESS

and distribution of badges to school children followed by Sports, Children's Athletic Events, for which prizes will be given. NO ADMISSION CHARGE

### INVITATION

A hearty invitation is extended to all school children and citizens in the district to be present and take part in the celebration.

All citizens are asked to co-operate by the flying of flags and in the decoration of both private and business premises.

NOTICE.—The full committee will meet in the Town Hall at 4:30 p.m. on Friday, May 3, to make final arrangements.

### GOD SAVE THE KING

## Indian Did Not Forget

**Sends Gift To Lawyer Who Saved His Son In Trial**

Sixteen months ago a Nanaimo juror acquitted Andrew Moses, slayer of Peter Albert Indian, of a charge of attempted murder—a charge laid after an Indian from the west coast of Vancouver Island, who had allegedly stolen Andrew's girl-wife, was stabbed through the heart and saved from death by a young Victoria surgeon.

For two days the jury listened to how Andrew had followed his pretty 18-year-old wife whom he had married according to Indian custom.

When he found her there was a fight and Charlie Sam was stabbed in the heart. Sam's life was in doubt for more than a month but he recovered eventually and Moses went on trial.

When the jury returned its verdict Chief Moses, Andrew's father, broke a two-day court room silence. "I don't forget you," he said to R. L. Mathews, K.C., his own counsel. "I don't forget you save Andrew's life. Andrew's good boy. You won't forget me."

Recently Mr. Mathews received two eight-foot intricately carved totem poles. What each figure and character denotes he will probably never fully know, but whenever he looks at them he will know that the old chief did not forget.

## BROKE HER LEG AGAINST A STAIR

## Whilst Hampered by Rheumatism

"Two years ago," writes a woman. "I was suffering with rheumatism in my legs, and when walking upstairs one day just kicked my right foot against the stairs, and broke my leg just below the knee. I was in hospital for four months, and when I came out someone advised me to try Kruschen salts. I did so, and now I have no trace of rheumatism. I would not be without my daily dose of Kruschen, which I take every morning—half a teaspoonful in warm water."

The six salts in Kruschen stimulate the liver and kidneys to healthy, regular action; assist them to get rid of the excess uric acid which is the cause of rheumatic pains. When poisonous uric acid is built up in the blood as in rheumatism, it is like a mass of dirty-pointed crystals—there's no doubt about those aches and pains going for.

## Bank Of Canada

## Will Pay Its First Dividend To Shareholders Next July

When the Bank of Canada pays its first dividend next July the amount going to each shareholder will be based upon the time the first share instalment was paid, it was learned at Ottawa.

Applicants for shares were required to send their orders for \$12.50 for each share requested, representing one-quarter of the cost per share of \$50.00 per share from January 2, to the date of declaration, probably July 2.

The actual rate of dividend will not be known until it is declared by the board of directors, but under section 31 of the Bank of Canada Act it cannot exceed 4 per cent a year, cumulative. Any excess profits over the maximum dividend requirements go to the rest fund and the consolidated revenue fund of Canada.

## Want Branch Lines

## Flea Is Made For Competition Of Two Branch Lines In Northern Saskatchewan

A plea for completion of two branch lines of the Canadian National Railways in northern Saskatchewan was made before the select standing committee on railways by C. R. McIntosh (Lib., North Battleford).

Mr. McIntosh suggested that in his request by P. G. Davies (Cons., Athabasca).

At present a branch line runs north from North Battleford, Sask., to St. Walburg, a distance of 80 miles, but the remaining 100 miles to Beaver River Crossing is unfinished. This line was projected originally to join North Battleford with Edmonton. Mr. McIntosh urged the road be completed, and estimated the cost to be not more than \$350,000.

The other line was from North Battleford to Edmonton, via Spruce Lake.

"A baby crying for an hour uses enough potential energy to climb to the top of the Washington Monument."

## THE CHORE GIRL

**Little Copper Pot Cleaner**  
Safe, efficient, will not rust or splinter. Also the shining finishing touch on brass and silver. Made in Canada.  
10c.  
ALL STORES  
Manufactured by  
Metal Textile Corp. of Can., Ltd.  
Hamilton, Ontario

## Idea Netted Personal Fortune

**Sir Guy Standing Made Money Selling Old War Equipment**

It is had not been for the Great War, Sir Guy Standing might not have been able to take up acting as a hobby.

He is well known for the excellent paintings and his adventures in the British navy for which he was knighted by the king. But he said that when the king's sword descended on his shoulders, he had but \$40 in his pocket.

Sir Guy, after the war, observed miles of United States tanks, tractors, automobiles and other equipment lined along the Rhine. He formed the Motor Organization, Ltd., set out to buy this equipment and sell it to Europe, which was trying to re-equip itself.

When the transaction was completed, Sir Guy discovered Britain had the same kind of leftover war material it would have to get rid of. Such competition would ruin his company, so he managed to buy this equipment as well. It took nine years for the company to sell and clear its books, but the result was a large personal fortune for him.

"A fortune," he explained, "which permitted me to make acting my favorite hobby."

"But you can be sure of one thing: In though you buy the business, it leaves too many gray hairs."

Sir Guy is 60 and one of Hollywood's popular characters.

## Drinking And Driving

## Danish Professors Conclude That

These Two Do Not Mix

Drinking and driving don't mix well, concluded two Danish professors, who recently tested the reactions of a group of drivers who had been given the alcoholic equivalent of three nice highballs. Tested by apparatus designed especially to note mental and physical activities, it was found that the highball squad were 17 per cent slower to react than those persons who had gone thirsty.

Consumption of alcohol, showed the experiments, adversely affected the speed of a driver in applying the foot brake and the strength of his grip on the steering wheel.

## Marine Food

## Say Seaweed Contains All Of The Important Vitamins

Down to the sea for seaweed will be man's next step in his quest for food. Professor E. Tilden, University of Minnesota, has completed leader of a scientific expedition to Japan, Australia and New Zealand, to collect marine algae, said at Minneapolis.

"Marine algae," said Prof. Tilden, "are sources of all four of the important vitamins, A, B, C and D."

## Saw It All Right

Elizabeth Harwood, Cleveland, visited a seeress. She was told "your husband will come back when he's tired of a blond" and "your husband is having trouble with the police." "Yes, sir," the fortune teller continued, "I see iron bars and blue coats. It means jail." It did. Miss Elizabeth Harwood, an unmarried policeman, took the seeress to jail.

## Little Journeys In Science

## THE SPECTROSCOPE

(By Gordon H. Quest, M.A.)

Scientists have shown that the earth and every star which can be observed by the telescope, including the most distant, are composed of the same substances. Of course the proportions are different, but the substances are not.

A glass prism in the hands of the great astronomer Sir Isaac Newton in 1672 commenced the train of thought that led to this discovery. Newton observed that the sun and planets are composed of the same materials in different proportions.

The spectroscopic science more than our eyes enable us to see. Man can only observe those substances that give off vibrations to which our eyes are sensitive. The spectroscopic science sends out vibrations that matter sends out. We cannot see colorless gases, but the spectroscopic science in fact this instrument can see gases so plainly that it can tell one from another. This is because every solid substance and every kind of gas sends out vibrations that have a rate of vibration of its own. Science has determined the rates of vibration of the various solids and gases of which the earth is composed. When the same vibrations come from other planets and space scientists know that they are composed of the same materials that are in the earth.

## Research Council

## Work Carried On By This Body Is Worth Millions To The Farmers

With their work estimated at "tens of millions of dollars" in value to farmers, associate committees of the National Research Council ended their seventh annual convention held at Winnipeg.

Dr. H. M. Tory, president of the council, declared in his windup address that the group had as much of Canada's future in its hands as any other body of Canadian citizens. The work was worth millions to farmers, he declared.

Farwell was said to Dr. O. B. Arnold, University of Alberta, who will shortly join the staff of the University of Wisconsin. Regretting Dr. Arnold's departure, the council expressed its regret that he was leaving his new work. Tribute to Dr. Tory's work was voiced by Dr. W. C. Murray, president of the University of Saskatchewan.

## Motor Car Industry

## Demand For Cars In United States

Puts Industry In High Gear

The No. 1 industrial colossus of the United States, the motor car industry, is in high gear. In half-hour trucks, in freight cars and in drive-away procession the product of the assembly lines is moving from factory to dealer and on to consumer in heavier volume than at any time during the last five years.

Gaining momentum steadily under the impetus of a swelling consumer demand, the industry has more than 1,313,000 passenger cars and trucks since Jan. 1. During 16 weeks of 1932, the industry produced as many units as were manufactured in all of 1931. Output for that year, lowest point in the depression, was 1,431,404 cars and trucks.

## Does Not Want Freedom

Rev. L. D. Stuehlman for a constant companion on his motor trips about the Wind River Indian reservation in Wyoming a domesticated wild feline. Seven years ago he captured the bird near Castle Rock, Colo., and it had broken a wing. It soon became a household pet and, although free to leave at any time, returns to its cage each night.

## Reflect a Moment!

We put the choicest leaf into Ogden's—just the kind of tobacco you'd select yourself, if you were a tobacco expert carrying out order to produce the best cigarette tobacco on the market.

Reflect a moment on this and you will see why we are so confident that Ogden's quality will satisfy you—just as it does so many other particular smokers. For the greatest satisfaction, roll Ogden's Fine Cut in "Vogue" or "Chanticleer" papers!

## SAVE THE POKER HANDS

## OGDEN'S FINE CUT

Your Pipe Knows Ogden's Cut Plug

## Japan's New Ships

## Merchant Marine Fleet Finest Naval Reserve In World

The Japanese are leaving no stones unturned in their expansion to major world power. Their new merchant marine fleet, the fleet naval reserve in the world, is speedily dominating Pacific Ocean shipping. One of six new luxury liners being built by Japan has entered service; a fleet of 50 freighters which travel at speed of more than 20 miles per hour, span Tokyo to San Francisco in 31 days with rich cargoes of silk. This constitutes a tremendous saving in time and dollars.

## Few Get Them

The average woman needs 12 pairs of shoes a year, shoe experts have estimated. They enumerate the kinds as follows: One pair for sports, four street pairs (one pair for each season), four pairs of formal daytime pumps, and three pairs of evening shoes—for spring, summer, and the fall-winter seasons.

## Builders And Wreckers

Glimping through a little trade magazine the other day the writer came across a short bit of verse entitled "Wreckers," which, in these days and times, is worthy of still wider circulation. So we reproduce it:

I watched them tearing a building down,  
A gang of men in a busy town.  
With a ho-beave-bo and a lusty yell,  
They swung a beam and the side wall fell.

I asked the foreman, "Are these men skilled  
And the men you'd hire if you had to build?"  
He gave a laugh and said, "No, indeed!"  
Just common labor is all I need.  
I can easily wreck in a day or two  
What build-in have taken a year to do."

I thought to myself as I went my way,  
Which of these roles have I tried to play?  
Am I a builder who works with care,  
Measuring life by the rule and square?  
Am I shaping my deeds to a well-made plan,  
Futurizing doing the best I can?  
Or am I a wrecker, who walks the town,  
Content with the labor of tearing down?

All over this world of ours there are men and women earnestly striving to build—people in governments, in churches, in education, in finance, in industry, in business, in statements around the League of Nations council table, sitting in international conferences, or engaged in diplomatic negotiations. They are trying to build new out of the wreckage and upheavals of political, economic and social conditions thrown into chaos by the Great War and its latter aftermath. They are striving to save civilization, and make it a finer thing than anything hitherto known.

But because the times are temporarily out of joint, weaknesses have developed in the economic system, social evils have become multiplied, in a word, because abnormal conditions exist and many people are in difficulties, the "wreckers" have become loud in their blatant and blundering efforts to tear down. Men and women who never constructed anything, who lack both the ability and the incentive to construct, are buying themselves in criticizing the efforts of the builders, imputing unworthy motives to them, seeking to wreck anything and everything of a constructive nature that is attempted.

Even the best and most patient of people are inclined to be critical and become fault-finders. In fact, how often are people now heard to speak in praise of anything, of any institution, or of any effort that is being put forth? Rather, it is not the general attitude to denounce and attack blame?

The popular thing today seems to be to destroy, to wreck. In some countries they are deliberately trying to destroy religion and so on, to return to the dark ages; in these and other countries the attempt is being made to deprive people of liberties won through the suffering and bloodshed of past generations. The wreckers would in a day tear down the constructive work of centuries.

There, those of, course, who still hold fast to the faith that in this world, who still believe in liberty as the sacred right of the individual citizen, who hold true to democratic forms of government and trust in the people and hatred of dictatorial measures.

Builder or wrecker—where are you? Which class has brought mankind to its present civilization? Which class lifted mankind from the caves and slums? Which group has developed modern medicine, which is responsible for modern inventions, which built our transportation and communication systems, our modern towns and cities, which brought into being the higher standard of life in this twentieth century? And was it not the wreckers who precipitated the Great War and are responsible for the whole train of evils which have followed.

The builders are still building in the face of enormous difficulties and the opposition of the wreckers; the builders are striving to save civilization, which the wreckers would destroy through revolution and bloodshed in order that out of civilization they may reap gushy benefits.

Each of us may well take stock of ourselves, study our present habits of thinking, examine our actions, watch our words—in brief, take a measure of our lives and see whether we are builders, "passively doing the best we can," or merely wreckers "content with the labor of tearing down."

## To Keep Informed

A representative of the Dominion government will visit Denmark soon to study operation of a peat development plant using a formula for which representatives of a British peat company have been seeking a subsidy for development here. This step is taken in order to keep fully informed of any new fuel development that might, for several years, but no longer has proved economically useful to Canada.

## Funds For Memorial

More than 29 countries are now enlisted in the campaign to collect funds for a Florence Nightingale memorial. It is to take the form of a statue to be erected in London. The League of Red Cross Societies have financed such courses for several years, but no longer has funds for such a purpose.

## Edwardsburg

AN ENERGY FOOD THAT HAS NOURISHED MORE CANADIAN CHILDREN THAN ANY OTHER CORN SYRUP

A product of THE CANADA STARCH CO., Limited

## Conference Between Government And Grain Exchange Officials In Connection With Garnet Wheat

While no official commitment was entered into, a conference between representatives of the Winnipeg Grain Exchange and the government in the office of Hon. R. B. Hanson, minister of trade and commerce, proceeded on the assumption that elevator companies will be protected when the separate grading of Garnet wheat becomes effective July 31 next.

The 1934 amendment to the Canada Grain Act excluded Garnet wheat from grades one and two Northern. The exclusion is to date from the opening of the new crop year. There are now said to be between 50,000,000 and 60,000,000 of bushels of grades one and two Northern which contain Garnet. Elevator companies hold this wheat and are obliged to deliver the quantity according to the grades under which it was taken in. If no provision is made for their protection, they will stand to lose heavily for the reason that this wheat will no longer qualify for its original grades.

The time was devoted to a general discussion of how best the change can be brought into effect, may be that the elevator companies will be compensated for the loss in quality which must result from the exclusion of Garnet from these grades. Of John F. McFarland, acting for the government, may accept delivery of all of it on the old grades and thus absorb the loss which will result. While it is clear that the burden of loss will not be placed on the elevator companies, the latter are failing to agree upon a method to be pursued.

The grain exchange was represented by Sidney T. Stinson, secretary, and Arthur Darby, secretary. With Mr. Hanson was Rod Finlayson, the law officers of the crown and other government officials. Mr. McFarland was not present.

### Five Major Errors

#### Cause Of Motor Fatalities Given By Insurance Company

What causes motor car fatalities? Violation of certain common rules of the road, which are, or should be known to all, accounts for most of them.

The Travelers' Insurance Company of the United States in its annual compilation of highway accidents finds drivers guilty of five major errors. Of the 36,000 deaths last year, the report shows, 6,850 were caused by excessive speed, 3,470 by driving on the wrong side of the road, 2,740 by not seeing right of way, 3,420 by driving off roadway, 2,740 by other reckless driving. Pedestrians erred, too, and are taxed with two major causes in the annual roll of fatalities: 4,310 by crossing streets between intersections and 2,680 by walking on rural highways. These seven causes account for 74 per cent. of the total lives lost—74, Louis Post-Dispatch.

### Feed Wheat Diverted

#### Say Shipments To U.S. From Canada Go To Flour Mills

United States agents are combating the misdeed in a hunt for wheat bootleggers, according to a Chicago despatch to the Herald Tribune.

"Because of the swirling storm of dust which last year covered the north, to permit its importation for feeding purposes. Investigators have discovered large diversions of the feed wheat to flour mills."

"One shipment of 400 tons from Canada, according to customs men, has disappeared somewhere in the region of St. Paul, and its obvious destination has caused investigators to wonder how much Canadian wheat ever reached the cattle for which it was intended."

### Leaks Are Wasteful

If you want to have plenty of hot water at your house, watch your hot water faucets and don't let them drip even a little. New washers cost little and a faucet that leaks even two drops a second can waste more than two gallons of water a day. If the leak becomes ever the smallest stream, there may easily go twenty gallons of hot water every day as you are paying for heat.

An apple tree is in its prime at about 25 years and reaches its "old age" at about 60, figures an agricultural economist.

### Likes Antarctic Fare

#### Lincoln Ellsworth Prefers It To New York Meals

New York restaurants would please Lincoln Ellsworth better if they served steaks and steaks or mutton steak of penguin. "I like the wild taste of such meat," said the explorer, back from Antarctica.

"Real steak is delicious and the only difficulty with penguin was that it took 17 of them to feed our crew. The breasts are the only parts you can eat."

Penguin eggs, too, are not to be snubbed on a polar menu. They are about the size of turkey eggs and fried or in omelets are fit for any explorer's breakfast.

In New York while making up his mind on plans for another try at crossing the southern back yard of the world, Ellsworth is keeping in trim by wrestling daily. Graying at 46 and tanned as if he had wintered on a Miami beach, he hopes to return to the Antarctic so that early in November or later in October he can attempt another try at that feat.

To the "so what" minded persons of the general public who look askance at polar expeditions, Ellsworth said this day: "There are 5,000,000 square miles in the Antarctic—an area equal to that of Europe and Australia, 90 per cent. of which is unexplored. The area must have all the resources of coal, gold and platinum and any other resources found in any other continent. They may be inaccessible to-day but we do not know what to-morrow will bring."

### FASHION FANCIES

Being a gentleman is simple. You just do the right thing when there's no power to make you do it.

MARSH: "Come to my arms and let them babble away."

PEACE: "You must first take off your armour, or you'll crush me."

—I. 420, Florence.

### Thinkers Are Real Rules

#### Determine Line Along Which Mankind Is To Advance

Behind the invention is the inventor; behind every discovery there is the thinker. The thinker is the real ruler of the world. He initiates new ideas, is behind each great advance, and really it is he who determines the line along which mankind is destined to advance. The thinkers are the world's real leaders; can we not say that they are the world's real rulers? The pen is mightier than the sword!

Being a gentleman is simple. You just do the right thing when there's no power to make you do it.

Nearly 40 per cent. of all college graduates have defective sight.

### Became A Boomerang

#### French Destroyer's Crew Had Queer Experience With Torpedo

While practicing off the port of Brest a French destroyer fired a torpedo which became a boomerang. Instead of pursuing its course to an innocent rafting it was impelled by some mechanical flaw to turn round and head for its parent destroyer. It was not carrying a destructive charge so that the physical damage was nil, but the officers of the vessel had to put back to port to recover from the experience.

He: "I have been trying to discover why a woman is so much more curious than a man. Why do you suppose it is, Miss Winnie?" She: "I don't know, I'm sure. I've never been curious enough to inquire."

## The SNAPSHOTS GUILD

More About The Candid Camera

In "candid" photography you must shoot with conditions "as is" that's what makes it fascinating.

Last week we talked about candid photography in general so now let's discuss the personal and mechanical equipment necessary to take candid camera pictures.

First, you must be equipped with a disposition to overcome a few obstacles, for you are going to have them if you are determined to get real candid camera shots. As we pointed out last week, in candid photography you take your pictures "as is."

In candid photography your picture possibilities are limited or unlimited, as the case may be—by the versatility of your camera, but for the average amateur a small camera with an f3.5 lens will give all the speed necessary. A fast lens plus super sensitive panchromatic film is essential if you are to make your candid camera shots under adverse lighting conditions, in or outdoors. Next in importance is your shutter speed. No, an extremely fast shutter speed is not all-important for candid shots, but obviously it has many advantages.

An ideal combination for your miniature candid camera is an f3.5 lens for your largest diaphragm opening with shutter speed ranging from one to 1/3000 of a second. With such a shutter you will also find equipped for "time" and "bulb" exposures. Now candid pictures are important, for there are occasions when you will find it quite necessary to make your candid shot with the lens wide open and then, to get proper ex-

## Upward Swing of Cattle Industry Is Indicated By Reports of High Prices Paid For Foundation Stock

### Follow Definite Routes

#### Wild Ducks Use Same "Highways" As Their Ancestors

Wild ducks migrate along routes followed by their ancestors in four definite geographic regions known as "highways," according to R. C. Lincoln, naturalist of the U.S. biological survey.

Attention has been drawn to his studies by W. O. Ross, K.C., M.L.A., Moose Jaw, president of the Saskatchewan Fish and Game League.

Result of the discovery that ducks follow four separate highways each spring and fall means that sportsmen along each route will have to protect their own ducks from fellow shooters as the numbers of the birds will not be replenished by ducks from other highways, according to Mr. Lincoln.

The ducks, he says, are so strongly influenced by their ancestral lines of migration that they will continue to follow the same conditions en route or on the wintering grounds become unfavorable.

If the birds should be exterminated in any one of the four major highways it would be a long time before that region could be repopulated, he says. He states there is unadaptable evidence that the waterfowl of North America have seriously decreased in numbers and, accordingly, that special precautions must be taken to prevent their extermination.

The four highways are known as the Atlantic, the Mississippi, the Central and the Pacific.

### Potatoes For Ensilage

#### Experiment To Be Made As To Their Suitability

For the purpose of preparing and carrying through a detailed program of research on the utilization and marketing of potatoes grown in Canada, the Executive Committee on Potato Research has been appointed, the members of which are officials of the Dominion Department of Agriculture and the National Research Council.

The committee is to inquire into the usefulness of employing potatoes for ensilage. Dr. E. S. Archibald, director, Dominion Experimental Farms, has arranged with Dr. E. S. Hopkins to include with the silage experiments this year the ensiling of potatoes alone and mixed with other crops, and the Division of Animal Husbandry has been requested to keep closely in touch with these experiments and to observe, through actual feeding trials, the results in comparison with cooked and raw potatoes, which will be available to the Potato Research Committee.

The 1934 potato crop of Canada has been estimated at about 60 million bushels which was 10 per cent greater than that of 1933 and six per cent above the average production for the five year period 1929-1933.

### Farmers' Creditors Act

#### 3,200 Settlements Arranged Between Debtor And Creditor

At the end of last March 3,216 farmers throughout Canada had sought liquidation of their Farmers' Creditors Arrangement Act, Quebec led with 11,819 interviews. It became known interviews with official receivers in other provinces were:

Saskatchewan, 8,778; Alberta, 8,311; Ontario, 5,321; Manitoba, 2,832; Prince Edward Island, 1,912; British Columbia, 1,668; New Brunswick, 714; and Nova Scotia, 281.

Finance Minister E. M. Rhodes, discussing the legislation, said: "The figure of 3,200 settlements in Canada in the short operation of this act is the strongest argument that could be used not only for the legislation but for the purpose of convincing everyone as to that element of fairness and honesty which characterizes debtors and creditor alike in this country."

He: "You know, you're not a bad sort of a girl." She: "Oh, you'd say so even if you didn't think so."

He: "Well, we're square then." She: "You'd think so even if I didn't say it."

The oldest complete skeleton of a Neanderthal which science has found to date is that of a Neanderthal woman who lived in Palestine, perhaps 75,000 years ago.

The recent sales of pure bred bulls in Western Canada are being regarded as a definite barometer indicating an upward swing in the livestock industry. Reports reaching the department of agriculture from these sales receive careful study. They were held in the provinces of Regina, Calgary and Edmonton.

The prices paid by ranchers for pure bred bulls indicate the confidence they have in the future of the cattle business since these bulls were bought to improve stock on the ranges. In the sales, and particularly in the Calgary sale, higher prices were paid than in former years. One bull in Calgary brought a top price of \$1500.

Increased demand for high grade live cattle in the United States is chief cause for the demand for pure bred bulls, according to Senator D. E. Riley, a rancher himself and particularly well informed on livestock matters. He regarded favorably many recommendations of the price commission for helping the industry.

A wide demand for grading tags on the rail is sweeping Canada, according to the department of agriculture. It is another phase of livestock marketing dealt with in the report although the supply of tags is not very definite and much has happened since they heard evidence on the subject.

Grading tags on the rail means grading after the animal has been graded. This is the practice in Denmark. The practice in Canada has been to grade on the hoof and the practice is a little above admittedly less accurate.

### Oration For Singers

#### Large Sum Paid Men Who Would Lead Applause

They number about 40 men, mostly Italian, who have gathered in New York whenever Manhattan's Metropolitan Opera gives a performance. They have no tickets and they need none. A leader passes them in, baggermister, at the 39th street entrance before the carriage trade arrives. Inside, they station themselves on either side of the house, as near the stage as possible. Perhaps 15 climb to the top gallery. Upstairs or downstairs their job is the same—to clap.

The horny-pated gentlemen of the Claque are worried for the winter is that they could no longer be wanted after Herbert W. Hetherington takes command at the Metropolitan. The Metropolitan management had nothing to say, for it is a matter of official acknowledgment that professional clappers. Their leader, one Harold Lodovichi, was melancholy. Having inherited his job from his father, Claque Leader Lodovichi has trained his men not only to promote enthusiasm at the right time but also to curb it. An open operator who gives a resounding hiss if he applauds at a wrong moment. If the Claque happens to be standing behind him they may be fairly deafened when the used moment comes.

The Metropolitan pays its Claque nothing but the singers may buy special services. Caruso rarely sang without a Claque. Gigli had his and Martini's top notes still bring cheers from the men at the rail. In the old days singers were known to pay as high as \$1000 for an evening's "success." Now \$25 will buy a fairly noisy ovation.—Time.

With regard to the excellence of quality of Canadian ducks, seen on Smithfield market London, England, mentioned in the London Fish Trade pasty, advisers show that the large duck, Eastern Townships, Quebec, because the ducks came, is purchasing 35,000, export tags and is starting sales, Ontario, says it is out from Chibougamau to Oskanele in Quebec last month and plans to transport another shortly. A mining company wanted the seats for rough hauling where there are no roads.

### Oxen Take To Air

And now we have flying oxen. "Ted" Lyburner, formerly of Niagara Falls, Ontario, says he is out from Chibougamau to Oskanele in Quebec last month and plans to transport another shortly. A mining company wanted the seats for rough hauling where there are no roads.

Hansen, Germany, of Pled Piper fame, is said to have the first non-pollutious illuminating gas supply in the world.

### BIG MONEY FOR WAR PURCHASES

The United States will spend 460 million dollars on its navy this current year, which is a sizeable sum in any language. The federal government of Canada does not spend that much money for its purchases, including the deficit on the Canadian National Railways.

Uncle Sam will also spend 400 million dollars on his army and will bring and forces up to 165,000 men.

The navy will have 24 new ships, 555 new seaplanes and 11,000 more men.

One cheerful thing about these warlike moves on the part of our Southern neighbor is that the Great Lakes area is omitted from the regions designed for consideration in locating new bases because of the tradition that there is no need for defending the Canadian border.

### WHO DISCOVERED AMERICA

Vilhjalmur Stefansson, Manitoba-born Norse explorer, broke into prominence in the press recently when he told the Pennsylvania Historical Society that the Irish were the first discoverers of America.

One might expect the ebullient Irish to raise and cheer this claim of Stefansson but the Free State authorities in Dublin candidly said they did not believe Columbus was beaten out by any Irishman. St. Brendan set out from Ireland in the sixth century to discover "the promised land of the saints," which he believed existed in the west. Legend says the saint landed on what he thought was a new-land but proved to be a whole, fast asleep.

Stefansson's rejoinder was to the effect that an Irishman had discovered Iceland and Greenland could be seen from Iceland, so actually the Irish did discover America.

The Vikings reached Iceland about 795 and their legends told of Leif Ericson, "The Red," sailing from Iceland to the continent of America, landing in the vicinity of New England states. To the new discovery Leif gave the name, "Vinland."

Aside from the historical interest, the exact facts as to America's discovery, who, by, how and when, is secondary to the present problem. This involves the discovery of a method whereby people can live together in a sensible and progressive civilization in the North American continent.

### THE RETURN OF HORSE POWER

Signs and portents point to the more extensive use of horses in the agriculture of Western Canada and the threatened supplanting of faithful old Dobbin by the gasoline tractor seems to have met a repulse.

The prairie farmer finds that it pays him better to raise his own "gasoline" on his own farm. He is finding out that the horse has not been given an extravagant factor as has been portrayed and that the products of the farm can keep this draft animal in good feed and ready for work.

Increased prices for horses have been forecast and not without reason. Farmers have not been very keen about raising colts the past ten years. The result has been that a great many of the horses in the country today are up in years and close to the end of their usefulness. Farmers must have power of some kind and the purchase of tractors is out of the question for the majority. When better times return there is bound to be a fairly active demand for horses.

We do not intend to convey the idea that power farming is to be a thing of the past, but we do believe that one lesson the farmer has learned during the past three years is that it is a foolish thing to place complete reliance on tractors for farm power and that the horse can more than hold its own on the average farm. We rather welcome the return to popularity of one of mankind's most faithful servants, the horse.

### THE WEST WON'T SECEDE

The suggestion that arises from time to time that the western provinces of Canada should break away from the east has never really been able to make much headway.

The advantages of solidarity have been evident during the past few years. The seeds of the secessionist movement have come to the aid of the west to the extent of millions of dollars. At one time the federal exchequer was looking after 270,000 Saskatchewan people.

Of course the west provided the primary wealth which was exchanged to the east for manufactured goods. The west also provided the bulk of the highly advantageous export trade of Canada. That is why the federal government has been so willing to help.

The production of wealth in Western Canada since a general colonization policy was undertaken was greater than that of any other part of the world in a similar period of time.

The fertile Western plains have been an Eldorado, a Klondike, a Kirkland Lake, a Rand and a Ballarat all rolled into one great wealth-producing area.

When the trouble which has been sweeping the world has been digested and when international trade revives once again, the Canadian west will resume its role of food producers.

### ANCIENT REMEDIES

(By C. E. Revere, an American Economist)

Planned economy—regimentation—is the most ancient governmental device known to human civilization. We find it in the Code of Hammurabi promulgated about 2250 B.C., automatically regulating the social, political and economic life of the inhabitants of a great empire. We see it in the sumptuary laws of the Hebrews, reaching the acme of detail shortly before the advent of the Roman domination. Planned economy was the resort of Diocletian, historical philosophers blaming his Edict with its rather domineering tone of the pillage that plunged western Europe into eight centuries of darkness. It also was the expedient by which the Byzantine Empire tried to atone for economic error, only to usher in a period of accelerated decadence leading to speedy downfall. Who is prepared to refute the historical charge that the regimentation of Colbert in his attempt to bolster up the waning fortunes of the Grande Monarchie, did not pave the way for the French Revolution?

Dating from the days of Hammurabi to the dawn of the eighteenth century, civilization has witnessed attempts at planned economy over approximately four thousand years. Consequently, a revival of this antiquated expedient should not be regarded as particularly "radical" in the sense of novelty. The newest thing is *laissez faire*—freedom—the democracy of enterprise.

THE BASSANO MAIL, THURSDAY, MAY 2, 1936.

## EXCHANGE EDITS & ARTICLES

### SHORT SKIRTS FOR PROSPERITY

Probably the least important bit of news of the day is the dispatch from Paris announcing that women's skirts are going to be shorter this summer.

Yet a fanciful man could deduce from this announcement a harbinger of restored prosperity.

Someone figured out a very odd circumstance, not long ago; to wit, that skirt lengths tend to increase in time of depression and to grow shorter on good times return.

There are even in existence charts to show that it often since the war the distance between the ground and the hem of the average woman's skirt has been a pretty fair gauge of the general health of business.

Why all this should be is something for the seers and the sooth-sayers.

Nevertheless, there it is—short skirts stand for prosperity, long ones for depressions.

Hail the latest news from Paris! —Vancouver Sun

### THE GREAT WHITE SPACE

Advertising has been proven as a business, builder, in newspaper advertising it is even advisable to have plenty of "white space" in an advertisement to make it appeal to the reader's eye.

But the young men will spend the week visiting their respective homes. The dance set for May 9 has been indefinitely postponed.

Miss Marie Williams, who has been attending school in Calgary, spent part of her vacation at home, returning with Miss Nettie LeGrand.

Mr. and Mrs. W. A. Treacy and Glen, and W. J. Kirby, who has been visiting them, motored to Hannan on Saturday to visit Mr. Kirby's sister, Mrs. Baxter.

Mr. and Mrs. W. R. McLean and son, Robert, spent the week-end with the Bells at Hussar, returning to Calgary on Sunday.

Mr. and Mrs. E. J. Bell and Margaret Bell and Mrs. McLean motored to Calgary on Sunday.

Mr. and Mrs. W. A. Treacy and Glen, and W. J. Kirby, who has been visiting them, motored to Hannan on Saturday to visit Mr. Kirby's sister, Mrs. Baxter.

Mr. and Mrs. W. R. McLean and son, Robert, spent the week-end with the Bells at Hussar, returning to Calgary on Sunday.

Mr. and Mrs. E. J. Bell and Margaret Bell and Mrs. McLean motored to Calgary on Sunday.

Mr. and Mrs. W. A. Treacy and Glen, and W. J. Kirby, who has been visiting them, motored to Hannan on Saturday to visit Mr. Kirby's sister, Mrs. Baxter.

Mr. and Mrs. W. R. McLean and son, Robert, spent the week-end with the Bells at Hussar, returning to Calgary on Sunday.

Mr. and Mrs. E. J. Bell and Margaret Bell and Mrs. McLean motored to Calgary on Sunday.

## HUSSAR

HUSSAR, April 28th.—On Sunday, May 12th, Rev. A. R. Aldrich will motor down from Calgary and hold Mothers' Day services in the hall at 1:30 p.m. The Sunday School will assist in the program.

On Thursday afternoon, the Hussar W.I. held its April meeting at the home of Mrs. R. E. Bessellings with officers and about ten members present.

Convention were read and carefully discussed, so that the delegate, Miss Anna Hole will be prepared to vote according to the wishes of those present. The quilt, which has brought in \$22.50, was won by Hans Buck-

schmidt. Plans for the play were again discussed; Mrs. Bell gave a short outline of the chief facts of the Jamboree. The next meeting will be at the home of Mrs. E. LeGrand.

After the meeting, a social hour was enjoyed while the hostess, assisted by her daughters, served a delicious lunch.

Mr. and Mrs. Rolfe motored down from Calgary on Easter Sunday to visit with Mr. and Mrs. E. Aldrich and other relatives. Mr. and Mrs. A. D. Williams, Zella Rolfe's parents, accompanied them back to Calgary.

Chet Thew and Mannville Anderson brought Ivan Anderson home on Sunday after a week's visit in the H.I. The young men will spend the week visiting their respective homes.

The dance set for May 9 has been indefinitely postponed.

Miss Marie Williams, who has been attending school in Calgary, spent part of her vacation at home, returning with Miss Nettie LeGrand.

Mr. and Mrs. W. A. Treacy and Glen, and W. J. Kirby, who has been visiting them, motored to Hannan on Saturday to visit Mr. Kirby's sister, Mrs. Baxter.

Mr. and Mrs. W. R. McLean and son, Robert, spent the week-end with the Bells at Hussar, returning to Calgary on Sunday.

Mr. and Mrs. E. J. Bell and Margaret Bell and Mrs. McLean motored to Calgary on Sunday.

**A MAN AFTER MY OWN HEART**  
By J.A.W. Martin, 320 21st Ave. West,  
Calgary, Alberta.

A man whose principles are really  
true.  
And whose legislation is always  
newer.

He sets a true example.  
A man who is everlastingly going.  
A man whom we very seldom hear  
blowing

Gratuity from his lips like rivers  
flowing

As he sets a true example.

A man who brave heart is very  
much stronger.

A man whose endurance will last  
much longer

While he sets a true example;

A man of ever undiminished devotion.

A man who's continually kept in  
motion,

His prestige extends beyond the wide  
ocean

Where he sets a true example.

One with good principles a true  
purer.

And with legislation a wee bit surer  
As he sets a true example.

His with an intellect very much  
brighter.

Honor, integrity considerably whiter.

For the good of the country an ardent  
fighter

While he sets this true example.

His heart will melt when he hears  
the poor crying.

His sympathy's felt by stinging and  
dying;

Yes, he'll set this true example,  
For he's the Premier produced by  
our City;

He views all the poor with a heart  
of pity.

With an open purse to sober or witless.

Ever setting a true example.

Sympathizing with and hearts that  
are aching.

Mending many sore hearts that have  
long been breaking.

In his good example.

A man of untold value to the nation.

While surprising the entire creation.

They who is he not due an acclamation?

For setting a true example?

Premier R.H. Bennett in Calgary  
West.

## CHANCELLOR

CHANCELLOR, April 28—Mr. G.  
C. Phillips has made three trips into  
Calgary this week. On his last trip  
Saturday he brought out a new tractor  
for Harry Muir.

The Social Credit Meetings are  
now held only every two weeks at  
the usual hour in G. C. Phillips' store.  
An active interest still continues in  
this group, and new discussions are  
brought up at each meeting. On Tues-  
day night, after listening to Mr.  
Manning's speech over the radio,  
Mrs. Phillips gave another interest-  
ing paper on Social Credit. Due to  
this being a busy season the meeting  
broke up early.

Despite the untoward weather con-  
ditions most of the farmers have  
made a fair start at seeding. Ed.  
Young, who lives near town, has been  
seeding since Tuesday. Mr. Giberson  
has 240 acres in wheat already.  
G. C. Phillips took his group of  
Boy Scouts to the Big Jambores in  
Calgary last week. The boys rode up  
with Mr. Phillips in his big truck.  
Every one said they had a fine time.  
Mr. and Mrs. H. F. Penske enter-  
tained at a dinner and bridge party  
on Saturday night. Their guests were  
Mr. and Mrs. R. S. Hughes, Mr. and  
Mrs. C. Dahl, all of Standard, Mrs.  
H. Channey and Harry, Mr. and Mrs.  
N. Hansen, Mr. and Mrs. J. M.  
Wheatley, Mr. and Mrs. E. H. Young  
and Mr. and Mrs. H. L. Muir.

Mr. and Mrs. Bill Blaney of Stor-  
bart visited with the Hobbs on Sun-  
day, also Mrs. N. Jensen of Standard.  
Miss Marjorie Grant returned to  
Chancellor on Sunday afternoon to  
resume teaching on Monday.

## BONERS

Marriage is a sacrament where a  
priest unites a man and woman in  
fetal union.

Lore is what you go to court about.

Liability is when you say nasty  
things about a person that are not  
true.

The Yellow Peril is a racing car.

A monastery is a place of monsters.

In case of asphyxiation apply arti-  
ficial respiration until the person is  
dead.

A hostage is a tall bird that hides  
its head in the sand.

## CROWFOOT

CROWFOOT, April 28.—The local  
football team took their first win-  
ning of the season last Sunday when  
Mackenzie defeated them 22-4. It  
was a little too chilly for the boys,  
but they say they might warm up  
with the weather. We hope to have a  
return game at Crowfoot soon.

Miss Eleanor Heflebower, who  
has been attending the University of  
Edmonton, returned home for the  
summer.

Floyd Nail and Jesse Walters were  
business callers in Bassano last Sat-  
urday.

Mr. and Mrs. Blake Robertson  
spent Sunday at the Heflebower  
home.

Seeding is in full swing in this  
vicinity now.  
Mr. and Mrs. Alf Sloan spent  
Sunday at the home of Mr. and Mrs.  
O. McCurdy.

It is reported that work will in-  
crease in the gravel pit west of Crow-  
foot in the near future.

Mr. and Mrs. Chas. Robison,  
Thomas and William and Miss Betha  
McLaughlin were supper guests of  
Mr. and Mrs. E. W. Campbell last  
Sunday.

## PECULIAR BUT TRUE

Isn't it funny  
That so many  
Business men

Will get up in the morning,

Refresh themselves with a dose of

advertising fruit salt,

Clean their teeth with an adver-

tised tooth brush and advertised

paste,

Wash and shave with advertised

soap.

Put on advertised underwear, ad-

vertised hose, garters, shirt, collar

and shoes,

Seat themselves at the table and

eat advertised breakfast food,

Drink advertised tea, coffee or co-

coa,

Put on an advertised hat and

gloves,

Light an advertised cigarette.

With an advertised match,

Drive to business in an advertised

car.

Gives letters to a typist who types

on an advertising machine using ad-

vertised paper and carbon.

Sign their letters with an adver-

tised pen containing advertised ink.

And

Turn down a proposal to advertise

on the grounds that Advertising

Does Not Pay!—Ex.

## CLUNY NOTES

CLUNY, April 28th—Mr. and Mrs.  
Sydney Crago and family of Alder-  
ville were visitors in town on Sunday.

David Nelson, Liberal candidate for  
this constituency, accompanied by  
James Clark and Andrew Nowicki,  
attended the Young Liberals at their  
convention in Calgary last week.

Mrs. L. P. Raymond and daughter  
Barbara spent part of Easter week  
with Roy Raymond's at Drumheller.

Miss Anna Reilly has returned to  
her school at Majorville after spend-  
ing Easter week with her parents.

Mr. and Mrs. W. R. McLean and  
Hobby spent part of the Easter hol-  
idays with Mrs. McLean's parents, Mr.  
and Mrs. Bell of Husar.

Miss Wilson and Joan returned to  
Cluny Sunday night after spending  
the holidays in Calgary.

Mrs. Joe Burger and baby daugh-  
ter Joyce came home from the Ar-  
rowood hospital on Friday. Joe  
is now in the market for a German  
Police dog; he must have the mark-  
ings, and if he has, he will pay any  
price.

The Girls Club held a meeting at  
the home of Catherine and Belle  
Goldsmith on Friday last. Plans were  
made for the annual Mother and  
Daughters' Banquet to take place on  
May 11th. The committee was in-  
structed to send flowers to Elizabeth  
Clark who is ill in the hospital at  
Rochester, Minn.

The regular meeting of the United  
Church W. A. will be held at the  
Masonic in Cluny on Thursday, May  
7th at 3 o'clock p.m.

The regular meeting of the Cluny  
W. I. will be held at the home of  
Mrs. L. P. Raymond on Thursday,  
May 9th.

TEAM RUNS OFF WITH

ROYAL COACH IN PARK LAKE

England's gala jubilee season was  
officially opened on April 29 with a  
king of old fashioned runaway. King  
George's famous Windsor greys bolted  
down Park Lane, smashed the  
Royal coach into a bog and then into  
a custer's barrow.

The ancient and honorable vehicle  
scored a clean victory in each in-  
stance, emerging with only one slight  
scratch on its gilt frame. The royal  
equipage was rehearsing its part in  
the May 6th procession.

Hubbard (making overtures after a  
quarrel): "And what little present  
shall I buy for the one I love best?"

Wife: "How about a box of cigars?"

## Items from the Past

Extracts from old  
Files of The Mail

## 18 YEARS AGO

Thursday, May 3, 1917.

The cool weather of the last few  
weeks has been decidedly discourag-  
ing to seeding operations, but despite  
this fact there has been quite an ac-  
cess of land sown to wheat. Quite  
noticeable and encouraging is the  
large amount of land being brought  
into cultivation close to town. Several  
sections between the town and the  
dam are this year being turned  
under and cropped for the first time  
this year.

Bread prices advance from 10c per  
loaf to 2 for 25c.

A new boiler has been purchased  
for the Bassano Electric Light plant  
but will not be installed until later  
on in the season.

Wallace Pfannen has installed a  
nice red devil of a gasoline pump in  
front of his store and will dish out  
the gasoline by the gallon.

"The high cost of living" can be re-  
duced by "increasing production",  
says the government. Set more hens,  
plant more gardens, was the order of  
the day.

Osborn Olson, of Galt, near Cluny,  
has heard that wheat was \$2.20  
per bushel, hauled to Bassano, but  
we hear he got only \$2.10. Good en-  
ough.

## THE AVERAGE MAN

Five years ago the Metropolitan  
Life Insurance Company—a Morgan  
controlled corporation—ran an ad-  
vertisement in most of the large  
newspapers in which it attempted to  
show the common course of fate for  
the average man.

Here's the ad:  
"What happens to 100 average men  
of 25 upon reaching the age of 65?"

"Only one will be wealthy. Four  
will be well-to-do and able to enjoy  
comfort and recreation. Five will be  
working for a living with no prospect  
of relief from drudgery. Thirty-five  
will be dependent upon friends or  
relatives or charity."

It must be assumed that the above  
figures were arrived at through the  
law of averages. The Metropolitan  
Life Insurance Company maintains a  
large staff of statisticians whose  
jobs depend upon their ability to  
compute averages. Life insurance  
companies do not operate on mere  
speculation.

But what a dismal prospect for the  
average man in the light of these  
figures. One out of a hundred will  
be wealthy, four will be only com-  
fortable, five will be slaving to make  
a pitiful living, thirty-five will have  
passed on—and fifty-five will be de-  
pendent upon charity as they face  
the twilight of life with—hope.

Something is radically wrong with  
a system that provides so little for  
the average man—Viking News.

A fool and his money are soon  
parted.

"The Quality Store"

## Local and Personal News

"If you know of an item for this column, let us know. We appreciate your help in recording the comings and goings of yourself, friends and relatives. Phone 19."

Mr. and Mrs. Andrew Clark of Medicine Hat are receiving congratulations on the birth of a daughter. Mrs. Clark was formerly Miss Katherine Hunter of this town. Daughter of Mr. and Mrs. T. Hunter.

A contemporary remarks that it is understood that the Dominion cabinet ministers are getting their heads together to build a concrete highway. It should make a good one as far as it goes—Banff Craig & Canyon.

Our Gem saxophone player announces that he has had six lessons and is progressing favorably. He is breaking in his audience slowly and gently, with intentions of staging a recital in the future. Well, to use that current expression, notes to you.

Mrs. E. P. Currie is a patient in the Bassano Hospital.

P. Mead is a patient in the Bassano Municipal Hospital.

Ted Stiles returned from Calgary last Saturday night.

Const. Grey of Jenner was in Bassano last week on his way to Calgary.

Mrs. J. Harris accompanied Joe on one of his regular trips to Calgary last Friday.

Bert Pallister and Wm. Driver, of Calgary, were in town on business last Friday.

Mrs. W. F. Keith returned last Saturday after spending a couple of weeks in Calgary.

Mrs. J. Summerville and Mr. and Mrs. W. P. Macbeth were visitors in Brooks on Tuesday.

Pilot Howard Sandgate and W. B. Sandbrook made a trip to Drumheller in Dr. Scott's plane Sunday.

Mr. and Mrs. F. D. McNaughton visited Mr. and Mrs. C. C. Elliott at Brooks for a couple of days last week.

Mr. M. Easterbrook went to Grande Prairie Wednesday morning. The family plan on moving up to reside in June.

Miss Florence Craig returned home to Ods last Sunday morning after spending the holidays with Miss Margaret Harper.

Ralph Harrison of Monahag is practicing teaching at Burn Brae school this week. Ralph is a student at Calgary Normal.

Miss Grace Dunlap and Miss V. McManuel returned from Miles today on Monday to commence teaching on Monday.

Mr. and Mrs. A. L. Smith and family left Wednesday morning to take up residence at Innisfail. Mr. Smith was Crown Lumber agent here.

Undoubtedly a man has less courage than a woman. Just imagine one with fifty-five cents in his pocket trying on seven suits of clothes.

Knud Hansen and Andy Jacobson were in Calgary last Thursday attending a butter-makers' convention called by the dairy commissioner of Alberta, Mr. Sweeney.

George Scott and Dante Ubertino returned home on Wednesday following the termination of their first year terms at the University of Alberta. George is studying aeronautics and Dante, law.

Hon. Mr. Weir, Minister of Agriculture in the federal government, and Dr. Barton, deputy minister, were driven over the country north of the Red Deer river by C. H. Powell on Monday of this week. The minister and his deputy were making a survey of the situation in the drought area of the prairie provinces.

Mr. and Mrs. Robert Ferguson are on their way from the states by motor for a visit with relatives and friends at Countess and Gem.

Mrs. M. Ferguson and daughter, Marjorie, spent a day with Miss K. B. Walsh last week.

The pie social given by the Countess Social Credit Group was well attended with Bassanettes much in evidence. A neat sum was lucked away for future brooding.

The pies sold like hotcakes and was the treat-keeping busy!

Miss Jeanne Dambie is home from Gem for the holidays.

Mrs. O. Swanson went up north the last of the week on business.

Mrs. M. H. Gamble and Marie Chamberlain went to Turner Valley; the last of the week for a visit with friends.

Countess

## TENDERS

TENDERS FOR COAL

Sealed Tenders addressed to the undersigned and endorsed "Tender for Coal" will be received until 12 o'clock noon (daylight saving).

Tuesday, May 14, 1938, for the supply of coal for the Dominion Building and Experimental Farms and Stations, throughout the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

Forms of tender with specifications and conditions attached can be obtained from the Purchasing Agent, Department of Public Works, Ottawa; the District Resident Architect, Winnipeg, Man.; the District Resident Architect, Regina, Sask.; the District Resident Architect, Calgary, Alta.; and the District Resident Architect, Victoria, B. C.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with departmental specifications and conditions.

The right to demand from the successful tenderer a deposit, not exceeding 10 per cent of the amount of the tender, to secure the proper fulfillment of the contract, is reserved.

By order, N. DESJARDINS, Secretary.

Department of Public Works, Ottawa, April 15, 1938.
